

Pregnant Students

The pregnancy of a student shall not affect the right of students to receive a public education, nor their privileges as students of NWBOCES, nor their opportunities to take part in any activities offered by the school.

Girls who become pregnant and wish to remain in school will be permitted to do so. The student's physician will state whether or not attendance and full participation in the regular school program is advisable. The Administrative Director will notify home district authorities for further action, if required.
